## 8. Food and Nutrition

### A. Board Update – Patricia Hoppe, Administrator (*for information only*)

- Reminder that this is the last year for the Universal Free Lunch program and reiterated how important it is for parents to fill out the free and reduced-price meal eligibility form and turn it in. The funds for the 2024-25 school year will be federal funds from the United States Department of Agriculture (USDA) and what the Department receives to administer the program will be based on the forms submitted.

## 9. Measurement Standards

### A. Board Update – Bill Stiejewske, Administrator (*for information only*)

- Valerie Drake had a question regarding the regulations for electric car charging station testing.
  - Administrator Stiejewske answered that the Department will be the ones to create those regulations; currently trying to figure out how to truly regulate it. California and New York are the only states currently doing this testing. NDA will learn from these states and try to get it right.
- Bernard Petersen had a question regarding livestock scales; how many certified truck scales there are in Nevada? Are they presently on an annual renewal for the state of Nevada? Do you have any idea how many livestock and truck scales yet need to be certified in the state?
  - Administrator Stiejewske answered that he is not sure of those numbers but will find out. Measurement Standards certifies over 50K scales a year. Director Goicoechea also commented that the weighing of livestock on trucks was not on the radar. Measurement Standards will work on that schedule and ensure they are done.

## 10. Plant Health and Compliance

### A. Board Update – Ashley Jeppson, Administrator (*for information only*)

- Paul Noe asked how people will know what can be sold with regards to the new neonicotinoid pesticide bill, AB162? The way the bill reads, the restriction is on the use of those products not on what can be sold. Is that correct?
  - Per Administrator Jeppson, the NDA will be trying to help retailers and will be contacting them to help them know who they can sell to as the bill is worded for the user. The NDA is drafting messaging now that will go out to retailers. People will have to know the active ingredients of the products being sold, and whether or not they have the certificate from the NDA giving permission to sell it. They will have to update their labels and state what is specific to Nevada. EPA will have to drive the changing of those labels. If the labels are not changed, they will not be sold in Nevada.
- Jim Snyder asked how far north do the fire ants occur?
  - All reports indicate they have been in southern Nevada parks; all have been in Clark county.

## 11. Public Comment

- Dr. Boyd Spratling addressed the role of the Board stating this Board has the responsibility to vote on all regulation changes. There is back on forth on where that is; I think this Board should be voting on every regulatory change and I would encourage this Board to push that responsibility moving forward. The Board should supply their knowledge and experience for those regulations. Also, a written comment was submitted that states, “Board Members: Please note the “statutory” duties of the Board of Agriculture. Note that approving proposed regulation by the Director is not mentioned (in the following statute). This in support of my live comments.” NRS 561.105 Duties; rules and regulations.
  1. The Board:
    - (a) Must be informed on an interested in the entire field of legislation and administration charged to the Department.
    - (b) Shall report to the Governor and Legislature on all matters which it deems relevant to the Department and concerning any specific matters previous requested by the Governor.
    - (c) Shall advise and make recommendations to the Governor or the Legislature relating to the policies of the State concerning livestock and agriculture.

    - (e) Shall adopt such regulations as it deems necessary for the operation of the Department and for carrying out the provisions of the laws and programs administered by the Department.
