

CONTINUING EDUCATION COURSE
APPROVAL GUIDE
for Nevada Pesticide Operators

Updated July 11, 2018

Pest Control Program
Plant Industry Division

Continuing Education Course Approval Guide

Plant Industry Division

Nevada pesticide regulations allow Commercial Pesticide Applicators (principals and operators), nonprimary principal commercial applicators, and private applicators to renew their Nevada Pest Control License or their Restricted-Use Pesticide Certification by accumulating continuing education units (CEUs) for attending training courses accredited approved by the Nevada Department of Agriculture (NDA). Seminars, classes, meetings, and other training activities must be accredited by NDA staff at least one day prior to their commencement, if held in the state of Nevada (see reciprocity on pages 7 and 8). The following will serve as a guide for training activities.

Advance notice

Per Nevada Administrative Code (NAC) Chapter 555.374, a minimum of seven days' notice is required, but to allow sufficient time for review, approval and return of accreditation documents to the course sponsor, it is recommended applications for continuing education activities are submitted at least 30 days prior to the beginning of the course. . Course applications received less than 30 days before the course date may be accredited if there is sufficient time for processing. If there is sufficient time to process late applications, the course application will be processed and approval given prior to the first day of the course. If there is insufficient time to process a late submission or an application is received after the first day of the course, the application will not be approved for Nevada CEUs.

Submitting a course or activity for approval

To apply for CEUs under Nevada continuing education activities, sponsors are asked to submit applications to:

Mail: Nevada Department of Agriculture Pest Control Program
Attn: Continuing Education
2300 E. St. Louis Ave.
Las Vegas, NV 89104-4314
Fax: (702) 668-4580
E-mail: ceu@agri.nv.gov

CEU approval questions should be directed to (702) 668-4589.

Each request for a continuing education activity must contain the following:

1. A completed "application for continuing education activity" form (parts A & B). Both forms are available as fillable PDFs at [agri.nv.gov/Plant/PEST/PCO Course Guide](http://agri.nv.gov/Plant/PEST/PCO_Course_Guide) and can be submitted via U.S. mail, fax, or e-mail. The course sponsor should also retain a copy of the form. *Note: A vita/biographical sketch may be submitted in place of part B, if it adequately describes the qualifications of the speaker or instructor. If the vita does not meet these requirements, part B of the application must be submitted for each speaker or instructor.*
2. A copy of the course outline (or a detailed agenda).

Continuing Education Course Approval Guide

Plant Industry Division

This is used to evaluate the course and assign the correct number of CEUs for the course (or parts within a course). The outline submitted should be timed or indicate the amount of time spend on each subject or parts within the subject. If the course or activity involves a tour, please provide an itinerary, including travel stops and times.

3. Copies of all materials being handed out during the course, including promotional materials. This is required if it pertains to the educational portion of the course.
4. A copy of the examination being used for evaluation (required for video, internet or other media presentations).
5. Copy of the certificate of completion or equivalent (NAC 555.372 & NAC 555 374). According to the regulation, it is not compulsory to provide all students with a certificate; however, a certificate must be provided if requested by a student.

Attendance sheet

Attendance sheet(s) must contain the following information:

1. The name of each person who attended the course;
2. The identification number assigned by the NDA to the licensee, nonprimary principal commercial applicator, or private applicator wishing to receive credit for completing the course;
3. The name of the business or governmental agency that employs the licensee, nonprimary principal commercial applicator, or private applicator;
4. The signature of the licensee, nonprimary principal commercial applicator, or private applicator;
5. Date of the event;
6. Title of the approved course, program, or activity;
7. The course number assigned by the approving agency;
8. The number of CEUs assigned by the agency;
9. A signature of the instructor or sponsor; and
10. A statement by the course provider that each licensee wishing to receive credit for the course presented his/her own valid Nevada Pest Control Commercial or Government License at the time attendance was recorded. Should an attendee fail to present such positive identification, no credit for the course will be awarded to the individual.

A blank attendance sheet can be download at: agri.nv.gov/Plant/PEST/PCO_Course_Guide.

Certificate of training (if requested by an individual)

The certificate (or equivalent) must contain, at a minimum, the following information:

1. Name of the attendee (recipient);
2. Date of the event;
3. Title of the approved CEU activity;
4. The course number assigned by the approving agency;
5. The number of CEUs assigned by the agency; and
6. A signature and title of the instructor or sponsor.

Continuing Education Course Approval Guide

Plant Industry Division

Approval process

Once the required information for a continuing education activity has been received from the sponsor, NDA staff will evaluate the application, and it will be assigned a course number and assigned the appropriate CEUs. A letter of accreditation, a scanned copy of the application for continuing education activity part A and a generic attendance sheet will be sent to the sponsor via e-mail (preferred method) or U.S. mail. If the sponsor wishes to use an alternate method of documenting attendance, this should be explained as an attachment to the application. In most cases the NDA will accept the alternate method if it complies with NAC 555.374 and a representative of the sponsor will certify attendance.

Part B of the application will not be returned with the letter of accreditation.

Criteria used for evaluating course offerings

Applications for continuing education activities submitted for CEUs will be evaluated based on the subject matter presented and time devoted to the topic. In general, discussions relating to almost any aspect of pest control may be considered for approval of CEUs.

Examples of continuing education courses that may be accredited (depending on topic) are:

- Seminars;
- Meetings;
- Association meetings - 1 CEU for every hour of instruction up to a maximum of 3 CEUs per year);
- Adult education classes; correspondence classes*; online courses*; college or university classes;
- Video or other media presentations (some restrictions apply)*; and
- Any equivalent activity approved by the NDA director.

Examples of acceptable continuing education topics include the following:

- Pesticide labels and labeling;
- Pesticide safety / pesticide first aid;
- Effects of pesticides on the environment;
- Environmental factors affecting pesticide use and performance;
- Characteristics of pests, biology, symptoms of pest infestation, and damage;
- Pesticide products;
- Application equipment, and techniques; and
- Pesticide laws and regulations.

Examples of topics which will not be considered for CEUs include the following:

- Plant nutrition and fertilizers;
- Business management (except as provided by NAC 555.290(8));
- Insurance;

Continuing Education Course Approval Guide

Plant Industry Division

- Marketing techniques;
- Public relations; and
- Sales pitches or sales presentations containing no significant technical information on pesticide products, pests, application equipment or techniques.

Online and other media presentations

A licensee must receive a grade of at least 70 percent on an examination, conducted upon completion of the course or presentation, which must consist of at least 10 questions covering each 50 minutes of instruction. A licensee who receives a grade of less than 70 percent on an examination may, not more than 30 days after being notified of his or her grade, take a different examination covering the same course or presentation which meets the requirements of this section. The licensee will receive credit for the completion of a unit of continuing education if he or she receives a grade of at least 70 percent on such a subsequent examination.

Assigning of CEUs and CEU requirements

CEUs will be assigned on a basis of (50) minutes of actual course time per CEU. Courses containing less than 50 minutes of acceptable material cannot be given Nevada CEUs, and therefore, are not approved. The minimum number of CEUs for any one course (or part within a course) is 1.0 CEU. CEUs will be granted in 0.5 increments after the first hour.

Courses are evaluated based on the information presented; if the information provided with the application does not describe a presentation adequately, CEUs may be reduced or may not be granted, even if the topic is acceptable for CEUs.

Custom licensees

Since 2006, each licensed applicator in the state of Nevada is required to successfully obtain at least six (6) CEUs for the renewal of their Commercial Nevada Pest Control License. The required breakdown of the CEUs are as follows:

- **Principals or primary principals**
At least one (1) CEU must be in laws and regulations governing the use of pesticides and five (5) additional CEUs must be obtained in the field of pest control (laws or general).
- **Operators**
Six (6) CEUs must be obtained in the field of pest control (laws or general).
- **Agents**
No CEU requirement.
- **Nevada Certified Pesticide Applicators (restricted use pesticide [RUP] certificate holders)**
Must have a current and valid certification (either a nonprimary principal commercial (commercial) or private applicator certification); 12 total CEUs need to be obtained during the applicators valid certification period; At least two (2) of the twelve (12) CEU must be in Laws and Regulations; and the additional CEUs must be obtained in the field

Continuing Education Course Approval Guide

Plant Industry Division

of pest control (laws or general).

For more information on this optional way of renewing a RUP certificate, please visit agri.nv.gov/pest-control for the renewal form and associated fees.

Training category descriptions

Laws and regulations category description examples

- State and federal laws and regulations impacting the pest control industry and the use of pesticides;
- Pesticide labeling, including pesticide use and use restrictions, label interpretation, storage, transportation, disposal requirements;
- Endangered species and groundwater restrictions (state and federal);
- Licensing and certification requirements for licensed pesticide applicators and certified applicators;
- Pesticide registration (state and federal);
- Techniques in reducing environmental damage (soil, water, animals, etc.);
- Integrated Pest Management (IPM);
- MSDS reviews and employee right to know; and
- Worker safety, PPE, spill response.

Other topics *may* be considered for laws and regulations, such as: FQPA, local outbreaks of disease-carrying pests resulting in public health concerns (plague, hantavirus, anthrax, and mosquito-borne diseases), health watches and warnings, or local restrictions (state, county, city, or township) relating to pest control.

General category description examples

Other topics which deal with pest management, safety in handling and dispensing pesticides, and other pesticide issues, which may include:

- Pest identification, including life cycles of pests, biology, life histories of pests, control methods, proper use and care of equipment, and clean-up;
- Specific types of application utilizing injection pumps, ULV sprayers, dusters, granular spreaders, large volume sprayers, and low-pressure handheld/backpack sprayers;
- Methodology of servicing special or sensitive buildings or locations (schools, daycare centers, market places, casinos, restaurants, office buildings, and multi-family dwellings);
- Characteristics, advantages, disadvantages, selection, use, and cleanup of pesticides and equipment;
- Application techniques;
- Drift reduction and calibration of equipment; and
- Emergencies and first aid.

Continuing Education Course Approval Guide

Plant Industry Division

Exceptions for custom licensees

1. Nevada Pest Control Operators possessing a current and valid Pest Control Advisor (PCA), Certified Crop Advisor (CCA), or equivalent certificate from another state, are exempt from acquiring the required CEU's related to pest control.
2. An applicator who obtained his license for the first time less than 12 months immediately preceding the expiration of his/her license.
3. A licensee who upgrades from an operator status (license) to a principal operator status (license) during the 12 months immediately preceding the expiration of his license by passing the general examination and at least one specific category examination.
Note: Just passing a principal category examination and upgrading that category from an operator to a principal does not exempt the licensee from the CEU requirements.
4. An applicator who passes the core and specific examinations given pursuant to NAC 555.340 in each category of pest control in which he or she is currently licensed.

Accreditation

In-house and equivalent courses will be accredited for 36 months and will expire on the last day of the 36th month, unless another expiration date is indicated on the Application. Live or equivalent courses will be accredited for 12 months and will expire on the last day of the 12th month, unless another expiration date is indicated on the Application. Online, CD based, correspondence, etc. based courses may be given a specific expiration date.

Reciprocity between states

There is no reciprocity between Nevada and other states with respect to Nevada's approval of pesticide continuing education activities. Courses accredited or approved by other states are not automatically assigned CEUs for Nevada pesticide applicators, nor are courses accredited or approved in Nevada automatically accredited for pest control licensees of other states. The licensing agency in each state (usually the state Department of Agriculture) must be contacted for course approval for pesticide applicators in that state. Contact the following agencies for course approval or accreditation in neighboring states:

Continuing Education Course Approval Guide

Plant Industry Division

Special note for course providers and Nevada pesticide applicators

Currently, Commercial Pesticide Applicators (principals and operators), nonprimary principal commercial applicators, and private applicators can obtain pesticide CEUs in any state of the union and receive equivalent CEU credit toward renewal of their Nevada Pest Control License or restricted-use pesticide certification, as long as the following Nevada CEU conditions are met by the course provider:

1. The course must be approved for pesticide CEUs by the appropriate agency responsible for approving pesticide CEUs (i.e. Idaho Department of Agriculture, Arizona Office of Pest management, etc. must approve the course for CEUs if the course is being held in their respective state).
2. The course provider or attendee must submit the following to the Nevada Department of Agriculture, Continuing Education section, upon completion of the course:
 - a. A final agenda or outline of the course including the location, date and times of the course, topics discussed, and the name of each speaker at the course;
 - b. A copy of the host state's approval letter (or form) and the number of CEUs approved for the course by the appropriate approving agency of the state, or equivalent document acceptable to the director indicating accreditation by the host state; and
 - c. A list of Nevada pesticide applicators who attended the course (attendance sheet) who are requesting credit for attending the course.

Course changes and monitoring

The sponsor of an approved course MUST provide at least one day's notice of any NDA continuing education activity being offered prior to the expiration date of the course or activity. The notification must include the date, time, and location of the course or program. The sponsor of an approved course MUST advise the NDA if an approved course is changed (i.e. speaker does not show, topic(s) change, date(s) change, or location changes, etc.). Courses are subject to monitoring and evaluating by the NDA or other agency representatives free of charge. Sponsors that do not adhere to these requirements or whose activities or courses deviate substantially from the submitted agenda may be withdrawn, pursuant to NAC 555.377.

After the course or activity

After the conclusion of a course or activity the sponsors must, within 30 days, return the completed attendance sheets to the NDA for CEU posting (NAC 555.377).

This is particularly important for courses occurring from October through December, since licensees will be renewing their commercial pest control licenses at the end of the calendar year.

CHAPTER 555 - CONTROL OF INSECTS, PESTS AND NOXIOUS WEEDS
CUSTOM APPLICATION OF PESTICIDES

NAC 555.372 Renewal of license for person engaged in pest control business: Requirements for continuing education. ([NRS 555.320](#), [555.400](#))

1. Except as otherwise provided in subsection 3, a person who is licensed to engage in the business of pest control may not renew the license unless the person certifies that he or she has, within the immediately preceding 12 months, completed at least six units of continuing education in courses accredited by the Director. Each unit of continuing education must be completed in a course that relates to pest control. A primary principal, location principal or principal:

(a) Is not entitled to receive credit for completing more than three units of continuing education in business management.

(b) Must complete at least one unit of continuing education in a course relating to laws and regulations governing the use of pesticides.

2. To receive credit for the completion of a unit of continuing education, a licensee must attend and successfully complete a course accredited by the Director. If the course for which credit for continuing education is sought is:

(a) An Internet course;

(b) A course contained on a compact disc;

(c) A correspondence course; or

(d) A video or other media presentation sponsored by the Cooperative Extension Service, a licensee must receive a grade of at least 70 percent on an examination, conducted upon completion of the course or presentation, which must consist of not fewer than 10 questions covering each 50 minutes of instruction. A licensee who receives a grade of less than 70 percent on an examination may, not more than 30 days after being notified of his or her grade, take a different examination covering the same course or presentation which meets the requirements of this section. The licensee will receive credit for the completion of a unit of continuing education if he or she receives a grade of at least 70 percent on such a subsequent examination.

3. The provisions of subsection 1 do not apply to a licensee who:

(a) Obtained the license for the first time less than 12 months immediately preceding the expiration of the license;

(b) Passes the core and specific examinations given pursuant to [NAC 555.340](#) in each category of pest control in which he or she is currently licensed;

(c) Holds a license or certificate as a pest control adviser or certified crop adviser, or the equivalent as determined by the Director;

(d) Is an operator and has become licensed as a principal during the 12 months immediately preceding the expiration of the license by passing the core examination and at least one examination for a category of pest control given pursuant to [NAC 555.340](#); or

(e) Is licensed solely as an agent.

4. A licensee may receive credit for the completion of a course of continuing education offered in another state if:

Continuing Education Course Approval Guide

Plant Industry Division

(a) The course is approved for continuing education by the appropriate agency of the state; and

(b) Upon completion of the course, the licensee or sponsor of the course submits to the Department:

(1) An agenda or outline for the course setting forth:

- (I) The location, date and time of the course;
- (II) The topics discussed during the course; and
- (III) The name of each speaker at the course;

(2) A copy of a letter or other form indicating that the appropriate agency of the state has approved the course for continuing education and the number of units of continuing education approved for the course;

(3) The name of each licensee from this State who attended the course as indicated by the attendance sheet for the course; and

(4) A request to receive credit for attending the course.

5. For each course for which a licensee claims one or more units of continuing education, he or she may request from the sponsor of the course:

(a) A certificate of completion issued by the sponsor of the course; or

(b) Another document or record that in the judgment of the Director adequately establishes that the licensee successfully completed the course.

(Added to NAC by Dep't of Agriculture by R081-99, eff. 11-18-99; A by R033-01, 5-1-2002; R001-03, 9-24-2003; R052-06, 6-28-2006; R033-14, 10-24-2014)

NAC 555.374 Continuing education: Prerequisites for accreditation and receipt of credit; duties of sponsor; acceptable activities. ([NRS 555.400](#), [561.105](#))

1. To obtain accreditation from the Director for a course of continuing education, the sponsor of the course must submit to the Department, at least 7 days before the first day of the course:

(a) A detailed outline of the subject matter to be presented;

(b) A description of the method of presentation;

(c) A curriculum vitae or other biographical statement of the instructor;

(d) For an Internet course, a course contained on a compact disc, a correspondence course or a video or other media presentation sponsored by the Cooperative Extension Service, a detailed description of the method or methods by which the sponsor intends to verify attendance by each licensee and the successful completion by each licensee of the examination required pursuant to subsection 2 of [NAC 555.372](#); and

(e) Any other information required in the application for accreditation.

2. To equal one unit of continuing education, the course for which the application is submitted must consist of at least 50 minutes of instruction and be directly related to:

(a) The control or management of pests;

(b) The classification or usage of pesticides;

(c) The safe handling or dispensing of pesticides; or

(d) A law or regulation concerning the use of pesticides.

Continuing Education Course Approval Guide

Plant Industry Division

3. The information required by subsection 1 must be submitted on an application prescribed by the Director.

4. The sponsor of a course accredited by the Director shall submit to the Department, within 30 days after the completion of the course, a list that includes:

- (a) The name of the course;
- (b) The course number assigned by the Director pursuant to [NAC 555.375](#);
- (c) The number of units of continuing education that a person who successfully completes the course may receive;
- (d) The name of each person who attended the course;
- (e) The identification number assigned by the Department to the licensee, nonprimary principal commercial applicator or private applicator wishing to receive credit for completing the course;
- (f) The name of the business or governmental agency that employs the licensee, nonprimary principal commercial applicator or private applicator;
- (g) The signature of the licensee, nonprimary principal commercial applicator or private applicator; and
- (h) A statement prepared by the sponsor of the course indicating that:
 - (1) The licensee presented to the sponsor the licensee's license as a primary principal, principal or operator or any other form of identification issued by a governmental agency that includes a photograph of the licensee;
 - (2) The nonprimary principal commercial applicator or private applicator presented to the sponsor a form of identification issued by a governmental agency that includes a photograph of the nonprimary principal commercial applicator or private applicator; or
 - (3) For an Internet course, a course contained on a compact disc, a correspondence course or a video or other media presentation sponsored by the Cooperative Extension Service, each licensee listed attended the course or presentation and passed the examination required pursuant to subsection 2 of [NAC 555.372](#).

5. The sponsor of a course shall maintain a record of the information set forth in subsection 4 for at least 4 years after the completion of the course. The records must be made available to the Director upon request.

6. Except as otherwise provided in subsection 7, courses of continuing education that may be accredited by the Director include, without limitation:

- (a) A seminar;
- (b) A meeting;
- (c) An adult education class;
- (d) A correspondence class;
- (e) An Internet class;
- (f) A college or university class;
- (g) A video or other media presentation; and
- (h) Any equivalent activity approved by the Director.

Continuing Education Course Approval Guide

Plant Industry Division

7. A person who attends a meeting of the Nevada Pest Control Association may receive credit for attending the meeting without obtaining approval for the meeting pursuant to this section.

8. A person who successfully completes a course of continuing education is not entitled to receive credit for attending the course unless, at the time the sponsor of the course recorded the attendance of the person at the course, the person presented to the sponsor the identification specified in paragraph (h) of subsection 4.

9. A licensee, nonprimary principal commercial applicator or private applicator may not receive credit more than once in a calendar year for attending the same course with the same course number assigned by the Director pursuant to [NAC 555.375](#).

(Added to NAC by Dep't of Agriculture by R081-99, eff. 11-18-99; A by R001-03, 9-24-2003; R052-06, 6-28-2006; A by Bd. of Agriculture by R156-07, 1-30-2008; A by Dep't of Agriculture by R062-10, 1-13-2011; R033-14, 10-24-2014)

NAC 555.375 Continuing education: Notification of accreditation by Director. (NRS 555.400)

1. The Director will, within 30 days after receipt of a completed application for accreditation of a course of continuing education, notify the sponsor of the course whether the course has been accredited or denied accreditation.

2. If the Director approves a course for accreditation, the notice of accreditation will include the:

- (a) Course number assigned by the Director; and
- (b) Number of units of continuing education for which the course is accredited. If a course is divided into sections, the notice will identify the number of units of continuing education allocated to each section.

(Added to NAC by Dep't of Agriculture by R081-99, eff. 11-18-99)

NAC 555.376 Continuing education: Sponsorship by Department or Cooperative Extension Service. (NRS 555.400)

1. The Director will accredit a course of continuing education sponsored by the Department if the Department complies with [NAC 555.374](#). Such a course may be in the form of:

- (a) A meeting;
- (b) Training for a certificate to use a restricted-use pesticide; or
- (c) A video, slide or other media presentation.

2. The Director will accredit training for a certificate to use a restricted-use pesticide sponsored by the Cooperative Extension Service upon compliance with [NAC 555.374](#).

(Added to NAC by Dep't of Agriculture by R081-99, eff. 11-18-99; A by R033-14, 10-24-2014)

NAC 555.377 Continuing education: Expiration, withdrawal, suspension or modification of accreditation. (NRS 555.400)

1. The accreditation of an in-house course of continuing education expires on the last day of the 36th month after the course is accredited. The accreditation of any other course of continuing

Continuing Education Course Approval Guide

Plant Industry Division

education expires on the last day of the 12th month after the course is accredited. A course of continuing education remains accredited for the applicable period unless the Director:

(a) Specifies a different date in the notice of accreditation; or
(b) Withdraws accreditation upon a finding of sufficient cause. Sufficient cause exists if the course as conducted does not conform to the course as described in the information provided pursuant to [NAC 555.374](#).

2. If a sponsor of an accredited course of continuing education fails to submit to the Department a list of all persons who successfully completed the course pursuant to [NAC 555.374](#), the Director may withdraw, suspend or modify the accreditation of the course.

3. Before the Director withdraws, suspends or modifies the accreditation of a course, he or she will give the sponsor:

(a) Notice in writing of his or her intention to withdraw, suspend or modify the accreditation and the reasons for taking that action; and

(b) An opportunity to respond.
