Nursery and Landscape Program

Application for Nursery Stock Dealer License Fee Waiver Request

*Nevada Revised Statutes 555.236 requires that any person who engages in the commercial production, holding, distribution, collection or selling of nursery stock must obtain a license from the Nevada Department of Agriculture. This includes landscapers who provide nursery stock, however acquired, to their clients. If your business has gross annual sales of nursery stock amounting to less than \$1,000.00 OR your business does NOT supply any nursery stock to your clients you may qualify for a waiver or exemption from the nursery license fee. **This fee waiver application request must be notarized (NRS 555.236(2)(b)).***

All businesses, including landscape and general contractors:

Minimal Sales

My business has less than \$1,000.00 in gross annual sales of nursery stock. **I understand that if my gross sales increase above that amount I am required to obtain a nursery stock dealer license and submit the full license fee.** I further understand that "nursery stock" means a plant for planting, propagation or ornamentation, and includes, without limitation, parts of plants, trees, shrubs, vines, vegetable plants, bulbs, stolons, tubers, corms, pips, rhizomes, scions, buds and grafts. I am aware that if my business has more than \$1,000.00 in gross sales of nursery stock and I fail to obtain a nursery stock dealer license I am subject to a misdemeanor citation and can be assessed fines of up to \$1,000.00 *per violation* (NAC 555.118).

No Sales

I do **NOT** sell, hold, handle or otherwise provide any nursery stock to my customers. I understand that failure to obtain a nursery stock dealer license before offering nursery stock to my clients is misdemeanor and can result in fines of up to \$1,000.00 per violation per day (NAC 555.118). I further understand that "nursery stock" means a plant for planting, propagation or ornamentation, and includes, without limitation, parts of plants, trees, shrubs, vines, vegetable plants, bulbs, stolons, tubers, corms, pips, rhizomes, scions, buds and grafts.
