

December 12, 2017 Board Update

Consumer Equitability Division

Staff

- Working on annual renewal of licenses for the Public Weighmaster program and registering the weighmasters and deputy weighmasters.
- Annual renewal of licenses for the Registered Service Agencies and Technicians.

Metrology

- Las Vegas lab passed assessment evaluation from NIST.
- LV lab will be receiving a Certification of Traceability.
- Recruitment is under way for a Metrologist I for the Sparks lab.

Weights and measures

- All inspection programs are operating normally.
- Sparks office is short two inspectors, LV short one.
- Kipp Blauer and Mike Gower have been officially appointed to the new NCWM Cannabis Work Group. The group will be charged to provide guidance materials for regulators and industry as this new market expands. The goal of this work group is to ensure that the expanding industry is handled professionally across the board from state to state and to ensure that scale suitability, package inspections, moisture loss, safety standards and personnel policies are handled uniformly.

Petroleum

- No changes in personnel or program operations.
- Bill Striejewski is the Committee Chair for Fuels and Lubricants Subcommittee (FALS).
