

## The Running Iron

Livestock ID is currently working on 4 open cases involving theft of livestock.

We have 3 cases before county District Attorney's and have assisted other law enforcement agencies with 2 additional cases pending.

If you are missing livestock contact our office at 775-738-8076 and make a report. That enables us to get the word out to our inspectors as well as ILIA (International Livestock Identification Association) who notify all states.

Protect yourself and get a brand inspection to make it a legal change of ownership when you buy, give, trade or sell a horse. We can only accept a notarized "Bill of Sale" from a non brand inspection state. This will avoid a civil suit in case disagreements arise.

A growing problem on public and private land is livestock being harassed by 4-wheeler and dirt bike enthusiasts. Livestock are being shot for sport and we have had reports of poisoning. These actions are against the law per NRS and could result in a category D felony to include a fine of \$10,000. If you witness these acts please call local law enforcement or our office at 775-738-8076.
