About **RMA**

The role of USDA's Risk Management Agency (RMA) is to help producers manage their business risks through effective, market-based risk management solutions. RMA's mission is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC). RMA was created in 1996; the FCIC was founded in 1938. Nevada Targeted States Risk Management Education focuses on increasing producer awareness and understanding of current Federal crop/livestock and revenue insurance programs, as well as educating producers on agricultural risks they face daily.

About THIS WORKSHOP

University of Nevada Cooperative Extension in conjunction with United States Department of Agriculture, present a workshop focusing on providing information on the new legislation on Cottage Foods and Farm to Fork. These new laws will provide both agricultural producers and home growers with opportunities to supplement their income and mitigate risk through creating and marketing value-added products, and agritourism.

For additional information or to register, please contact:

Becky Holys
Registration Coordinator

UNCE, Clark County
P.O. Box 126
Logandale, NV 89021
Phone: 702-397-2604 Ext. 0
Fax: 702-397-8301
holysr@unce.unr.edu
