

Pickling Recipes

Food & Nutrition Division

Recipes that are approved for the Craft Food program are listed below. Should you prefer to use your own recipe, it would have to be approved by a [process authority](#).

Here is a list of some specific requirements concerning any recipe used:

- The form of the item cannot be altered except to make it smaller, for example, a recipe for a whole pickle can be used to make pickle spears but a pickle spear recipe cannot be used to make a whole pickle.
- The required water bath canning time, adjusted for altitude, cannot be shortened. Only purchased vinegar with 5 percent acidity or more is approved for any recipe.
- The vinegar to water ratio cannot be altered except to add vinegar.
- One or two items such as garlic cloves or a pepper may be added so long as the primary ingredient is not significantly changed.
- The total amount of spices may be reduced but may only be increased by an amount equal to 50 percent of the total amount specified in the recipe.
