

# Nevada Department of Agriculture

## Reporting Noxious Weeds

Noxious weeds are plants that have been identified as invasive and destructive. According to Nevada Revised Statute 555.130, landowners (including public landowners) are responsible for the maintenance and control of designated noxious weeds. To assist in reporting noxious weeds found on public lands throughout the state, agency hotline numbers are provided below. When contacting these agencies, please provide descriptive information and the location, including addresses, mile markers, cross streets, mountain ranges and GPS coordinates. To see the list of designated noxious weeds or report noxious weeds electronically through the Nevada Department of Agriculture Noxious Weed Notification Form, please visit: [agri.nv.gov/NoxiousWeeds](http://agri.nv.gov/NoxiousWeeds)
