

Nevada Nursery Stock Dealer License Application

Plant Industry Division

Nevada nursery laws required any person who engages in the commercial production, holding, distribution, collection or selling of nursery stock to obtain a nursery stock dealer license. Licenses are issued according to the state fiscal year and **expire on July 1 of each year**. All renewals not paid in full by the expiration date are subject to a **\$75 late fee**. A separate license and fee are required for each business location.

License type

Use the information below to determine your business type and the required fee:

- **Registered place of business:** Includes retail nurseries and stores, grocers, drug stores, wholesale and retail growers, greenhouse operations, landscape contractors, landscape maintenance companies, etc. A license is required for each business location.
- **Peddler:** Includes businesses that solicit, sell or offer for sale nursery stock *directly to the public* and do not have a business located in Nevada. Wholesale growers with valid nursery licenses issued by another state department of agriculture who sell *only* to businesses holding valid Nevada nursery stock dealer license are exempt and do not have to obtain a Nevada nursery stock dealer license.
- **Broker:** Includes businesses that act for others in negotiating for the purchase or sale of nursery stock and do not handle either the nursery stock or the proceeds of the sale.
- **State or local government entity** such as conservation district, forestry division, school programs, etc.

License fees

Nevada nursery stock dealer licenses are annual licenses and are issued for the Nevada fiscal year. Licenses expire on June 30. Renewal notices are mailed to each licensee in May.

License type	Base license fee***
Registered place of business	\$175*
Peddler	\$250*
Broker	\$250*
State or local government entity	\$ 0**
Nevada production acres: for each acre of nursery stock in production, or portion thereof after the first acre	\$ 25/acre to a maximum of \$250. Add to base license fee.

* Required by NRS.

** State or local government entities are exempted by NRS 555.236(g) from the requirement to obtain a license to sell nursery stock but must notify the department of the location of such sales and conduct business in accordance with pest conditions and grades and standards for nursery stock.

*** Businesses with only occasional sales of nursery stock totaling less than \$1,000.00 per year may qualify for a waiver from the license fee.
