PROGRAM AUTHORITY

On December 21, 2004, the [Specialty Crops Competitiveness Act of 2004](#) (7 U.S.C. 1621 note) authorized the Department of Agriculture (USDA) to provide grants to State departments of agriculture solely to enhance the competitiveness of specialty crops.

The [Food, Conservation, and Energy Act of 2008 \(Farm Bill\)](#) amended the Specialty Crops Competitiveness Act of 2004 and authorized the USDA to provide grants to States for each of the fiscal years 2008 through 2012 to enhance the competitiveness of specialty crops.

Each State that submits an application that is reviewed and approved by the Agricultural Marketing Service (AMS) is to receive at least an amount that is equal to the higher of \$100,000, or 1/3 of 1 percent of the total amount of funding made available for that fiscal year. In addition, AMS will allocate the remainder of the grant funds based on the value of specialty crop production in each state in relation to the national value of specialty crop production using the latest available cash receipt data.

ELIGIBLE ENTITIES

State departments of agriculture in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands are eligible to apply for funds. State department of agriculture is defined as the agency, commission, or department of a State government responsible for agriculture within the State.

ELIGIBLE GRANT PROJECTS

[Back to Top](#)

SOLELY ENHANCE THE COMPETITIVENESS OF U.S. OR U.S. TERRITORY GROWN SPECIALTY CROPS

To be eligible for a grant, the project(s) must **solely** enhance the competitiveness of U.S.- or U.S. territory-grown specialty crops in either domestic or foreign markets. See the [SCBGP-FB website](#), for a list of eligible specialty crops and ineligible commodities.

AMS encourages states to develop projects solely to enhance the competitiveness of specialty crops pertaining to the following issues affecting the specialty crop industry: increasing child and adult nutrition knowledge and consumption of specialty crops; improving efficiency and reducing costs of distribution systems; assisting all entities in the specialty crop distribution chain in developing “Good Agricultural Practices”, “Good Handling Practices”, “Good Manufacturing Practices”, and in cost-share arrangements for funding audits of such systems for small farmers, packers and processors; investing in specialty crop research, including research to focus on conservation and environmental outcomes; enhancing food safety; developing new and improved seed varieties and specialty crops; pest and disease control; and development of organic and sustainable production practices.

States may wish to consider submitting grants that increase the competitiveness of specialty crop farmers, including Native American and disadvantaged farmers. Increasing competitiveness may include developing local and regional food systems, and improving food access in underserved communities.

COMPLETED WITHIN 3 CALENDAR YEARS

[Back to Top](#)

Projects must be completed within 3 calendar years. The grant period must begin no later than September 30, 2012 and end no later than September 29, 2015.

BENEFIT MORE THAN ONE PRODUCT OR ORGANIZATION

[Back to Top](#)

Applications for grant funds should describe how the project potentially impacts and produces measurable outcomes for the specialty crop industry and/or the public rather than a single organization, institution, or individual.

Grant funds will not be awarded for projects that solely benefit a particular commercial product or provide a profit to a single organization, institution, or individual. Single organizations, institutions, and individuals are encouraged to participate as project partners.

The following are some examples of acceptable and unacceptable projects:

EXAMPLES OF UNACCEPTABLE PROJECTS

- A company requests grant funds to purchase starter plants or equipment used to plant, cultivate, and grow a specialty crop for the purpose of making a profit, or to expand production of a single business.
- A State requests grant funds to make grants to individual specialty crop businesses or roadside stands to promote their individual business.
- A sole proprietor requests grant funds to redesign her/his logo in order to make her/his specialty crop value-added product stand out at the local farmers market.
- A company that develops specialty crop value-added products requests funds to train its employees how to make its value-added products.
- A specialty crop producer requests funds to promote their asparagus at a roadside stand.

EXAMPLES OF ACCEPTABLE PROJECTS

- A State requests funding to contract with a university to conduct research on the feasibility of planting, cultivating, and growing a specialty crop in a particular area, the results of which can be shared with many growers throughout the State.
- A single grower requests funds to demonstrate the viability of organic small fruit production and partners with Cooperative Extension to publicize the working model of diversification to other regional growers.
- A single company requests funds to provide a viable pollination alternative to specialty crop stakeholders in the region, which currently does not have one.

- A single specialty crop organization requests funds to conduct an advertising campaign that will benefit their specialty crop members.
- A single farmer erects high tunnels on their property to extend the growing season of tomatoes and lettuce and conducts a field day and farm tour to encourage other small family farmers to adopt the production methods.

MULTI-STATE PARTNERSHIPS

[Back to Top](#)

Multi-state projects are encouraged to provide a growing need for solutions to problems that cross state boundaries such as, but not limited to: addressing good agricultural practices, research on crop productivity or quality, enhancing access to federal nutrition programs, pest and disease management, or commodity-specific projects addressing common issues in multi-state regions.

A project is multi-state when an organization receives SCBGP-FB funding from more than one state to execute the same or multiple components of the same project. The project must be identified as a multi-state project through the inclusion of a multi-state section in the State Plan project profile (see [Appendix C: State Plan Format](#) and [Appendix D: Application Checklist](#) for more information). In addition, all States reviewing the proposal need to be aware that the project is multi-state so that they can collectively decide to fund it.

If interested in working with a particular state or states, please contact the Specialty Crop Block Grant Program – Farm Bill office. Their contact information is listed in “SCBGP-FB Contacts” at the end of this document.

Recommended Review Process for Multi-State Projects

Multi-state projects present an opportunity to address complex issues both efficiently and comprehensively within the specialty crop industry. Situations that require a multi-state effort tend to be beyond the scope or reach of a single State department of agriculture. Therefore, it may not be feasible to align specialty crop goals, priorities, review criteria, etc. to ensure the selection of multi-state projects within each State department of agriculture’s competitive review process. As such, it may be sensible for the States to consider the use of a non-competitive review process specifically for multi-state project proposals in order to encourage their development and submission.

This non-competitive peer review process, although not part of a State’s competitive review, demonstrates that the proposed project is of the highest quality, is multi-state, meets stakeholder needs, and is consistent with each State’s goals. Accordingly, it is advisable to ensure that the reviewers are not associated with the project and that they are knowledgeable in the subject matter of the proposed project. Concerns that are identified during the review process should be addressed in subsequent revisions of the proposal in order to obtain approval.

A high-quality multi-State project proposal demonstrates the following information and procedures:

1. The objectives are clearly focused
2. Each participant listed has direct involvement in the accomplishment of the stated objectives
3. The project is multi-state
4. The project proposal has been peer-reviewed

5. The proposed project is oriented toward accomplishment of specific outcomes and impacts and based on the priorities developed from stakeholder input
6. The proposal describes how the States are going to collaborate effectively within the project
7. Each State participating in the project submits the project in their State plan indicating which State is taking the coordinating role and the percent of the budget covered by each State

ADMINISTRATION OF GRANTS

[Back to Top](#)

AMS applies the following federal grant uniform administrative requirements to the management of each grant award, and the State department of agriculture shall in turn apply these requirements to their subgrantees based on the type of organization through their contractual or cooperative linkages. For example, if the State government subawards to a non-profit, the administrative requirements applicable to a non-profit will apply.

- State and Local Governments and Indian Tribal Governments – [7 CFR 3015](#) and [7 CFR 3016](#)
- Colleges and Universities – [7 CFR 3015](#) and [7 CFR 3019](#)
- Non-Profits – [7 CFR 3015](#) and [7 CFR 3019](#)
- For Profits – [7 CFR 3015](#) and [7 CFR 3019](#)
- [7 CFR Part 3052](#), “Audit of States, Local Governments, and Non-profit Organizations”

ALLOWABLE COSTS

[Back to Top](#)

All awards and subawards are subject to those cost principles applicable to the particular organization concerned. For example, if a State government subawards to a university, the cost principles applicable to a university will apply. Please refer to the applicable cost principles when developing your project activities and budget. You may reference [Appendix A List of Selected Items of Cost Contained in OMB Cost Principles Regulations](#) to locate the principles applied in establishing the allowability or unallowability of specific items of cost. All costs must be associated with project activities that enhance the competitiveness of specialty crops.

- State and Local Governments and Indian Tribal Governments – [2 CFR 225 \(OMB Circular A-87\)](#). See [Appendix B Unallowable and Allowable Costs for State Governments](#), for specific unallowable and allowable costs under the SCBGP-FB for State governments.
- Colleges and Universities – [2 CFR 220 \(OMB Circular A-21\)](#)
- Non-Profits – [2 CFR 230 \(OMB Circular A-122\)](#)
- For Profits – [48 CFR Part 31.2](#)

RESTRICTIONS AND LIMITATIONS ON GRANT FUNDS

[Back to Top](#)

- Grant funds shall supplement the expenditure of State funds in support of specialty crops grown in that State, rather than replace State funds.

- Grant funds may not be used to fund political activities in accordance with provisions of the Hatch Act (5 U.S.C. 1501-1508 and 7321-7326).
- Development or participation in lobbying activities pursuant to 31 U.S.C. 1352 including costs of membership in organizations substantially engaged in lobbying are unallowable.
- Capital expenditures for general purpose equipment, buildings, and land are unallowable as direct and indirect charges.

Capital expenditures means expenditures for the acquisition cost of capital assets (equipment, buildings, land), or expenditures to make improvements to capital assets that materially increase their value or useful life. Acquisition cost means the cost of the asset including the cost to put it in place. Acquisition cost for equipment, for example, means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in transit insurance, freight, and installation may be included in, or excluded from the acquisition cost in accordance with the governmental unit’s regular accounting practices.

General purpose equipment means equipment, which is not limited to research, scientific or other technical activities. Examples include office equipment and furnishings, telephone networks, information technology equipment and systems, reproduction and printing equipment, and motor vehicles.

Equipment means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds \$5000.

- Capital expenditures for special purpose equipment are allowable as direct costs, provided that items with a unit cost of \$5000 or more have the acceptance of AMS. (Note: Acceptance from AMS means that the special purpose equipment must be included in the State Plan, and the State Plan must receive approval from AMS. If special purpose equipment was not originally included in the approved State plan, then the grantee must request approval from AMS to purchase the equipment before utilizing grant funds.)

Special purpose equipment means equipment which is used only for research, scientific, or other technical activities. The special purpose equipment must solely enhance the competitiveness of eligible specialty crops and benefit the specialty crop industry.

- Rental costs of buildings, equipment, and vehicles are allowable as direct costs in accordance with the cost principles in Subpart T of 7 CFR 3015.

REPORTING REQUIREMENTS

[Back to Top](#)

Annual performance reports and final performance reports will be accepted via email. A final Federal Financial Report (SF-425) shall be signed by the appropriate State official, and submitted to SCBGP-FB by email. If emailing the form, please scan the signed document and attach it to the email. The reports may be sent by email to: Scblockgrants@ams.usda.gov or via www.yousendit.com.

Upon receipt of each performance report, the Program Office will review the report and communicate with the grantee should there be any questions or concerns. Annual and final performance reports that are approved will become part of the official grant file.

ANNUAL PERFORMANCE REPORTS

[Back to Top](#)

Annual performance reports are required to be received prior to 90 days after the end of the first year of the date of the signed grant agreement and each subsequent year until the expiration date of the grant period. The annual performance report should include a cover page and sections for each project that detail the progress to date.

COVER PAGE

Provide the following information in the order requested:

- Name of State Department of Agriculture
- Name of State Point of Contact
- USDA AMS Agreement Number
- Type of Report (Annual or Final Performance Report)
- Date Report is Submitted

Each project shall be outlined as separate project profiles. For example, Project 1 shall include a section for the project title, activities performed, problems and delays, future project plans, and total funding expended to date and then project two should include a section for project title, activities performed, problems and delays, etc.

PROJECT TITLE

- Provide the project's title.

ACTIVITIES PERFORMED

- Briefly summarize activities performed, targets, and/or performance goals achieved during the reporting period. - Present the significant contributions and role of project partners in the project.
- Clearly convey progress toward achieving outcomes by illustrating baseline data that has been gathered to date and showing the progress toward achieving set targets.
- If a target of a project has already been achieved, it is encouraged to amend the outcome measure. This permits the project staff to “stretch” the goals in order to go beyond what they are already doing.

PROBLEMS AND DELAYS

- Note unexpected delays, impediments, and challenges that have been confronted in order to complete the goals for each project. Explain why these changes took place.
- Mention the actions that were taken in order to address these delays, impediments, and challenges.
- Review measurable outcomes to determine if targets are realistic and attainable. An objective that is too stringent should be scaled back and identified in the performance report. Keep in mind that targets may slip due to all kinds of factors, such as employee turn-over and bad weather.
- In the event that the work plan timeline, expected measurable outcomes, budget, and/or methodology needs to be adjusted, provide an outline of those changes.

FUTURE PROJECT PLANS

- Briefly summarize activities performed, targets, and/or performance goals to be achieved during the next reporting period for each project. Whenever possible, describe the work accomplished in both quantitative and qualitative terms.
- Describe any changes that are anticipated in the project.

FUNDING EXPENDED TO DATE

- Provide information regarding the level of grant funds expended to date.
- In the event that a project gained income as a result of planned activities, provide the amount of this supplemental funding and how it will be reinvested into the project.

FINAL PERFORMANCE REPORT

AUDIT REQUIREMENTS

[Back to Top](#)

The State is accountable for conducting an annual financial audit of the expenditures of all SCBGP-FB funds. This requirement can be fulfilled by the Single Audit Act (A-133) or a program-specific audit in accordance with 7 CFR Part 3052, "Audit of States, Local Governments, and Non-profit Organizations".

SINGLE AUDIT ACT

If the Single Audit Act applies, the State shall submit the annual A-133 audit results to AMS within 30 days after completion of the audit. See [OMB Circular A-133, “Audits of States, Local Governments, and Non-Profit Organizations”](#) for guidance on if the Single Audit Act applies.

PROGRAM-SPECIFIC AUDIT

If the Single Audit Act does not apply, the State shall conduct an audit in accordance with Generally Accepted Government Auditing Standards (GAGAS) of all SCBGP-FB funds no later than 60 days after the end date of the grant agreement. The State shall submit to AMS not later than 30 days after completion of the audit, a copy of the audit results.

GRANT CLOSE OUT CHECKLIST

[Back to Top](#)

Due 90 days following the grant ending date:

1. Final Performance Report
2. SF-425, “Federal Financial Report”
3. Program-Specific Audit Report if A-133 audit was not previously submitted on an annual basis

REQUESTS FOR PAYMENT

[Back to Top](#)

Payments of grant funds must be requested by the State agency using [Form SF-270, “Request for Advance or Reimbursement”](#) at least on a quarterly basis. Quarterly cash advances shall be limited to the minimum amounts needed to meet current disbursement needs and shall be scheduled so the funds are available as closely as is administratively feasible to the actual disbursements by the State Agency for program costs. Cash advances made by the State Agency to secondary recipient organizations or the State Agency’s field organizations shall conform substantially to the same standards of timing and amount that applies to cash advances by the Federal Agency to the State Agency. Payments will be made electronically to the bank account specified by the State agency. The SF-270 should be signed by the appropriate organizational representative and submitted to SCBGP-FB by fax or email. If emailing the form, please scan the signed document and attach it to the email.

Requests for payments should be scheduled so that all grant funds are obligated (encumbered) at the end of the grant agreement and disbursed within 90 days after the end date of the grant agreement. Any unobligated (unencumbered) balance of cash at the end of this period must immediately be refunded back to the Federal Agency.

The obligation of funds may be terminated without further cause unless the grantee commences the timely drawdown of funds; initial drawdown must be made within the first year of the grant period.

The form may be sent by email to: Scblockgrants@ams.usda.gov or faxed to (202) 720-0016; Attn: Specialty Crop Block Grant Program.

RECORD RETENTION

[Back to Top](#)

In accordance with Federal regulations, grant recipients should retain all records relating to the grant for a period of three years after the final financial status report has received by SCBGP-FB or until final resolution of any audit finding or litigation.
