Subject: Re: NAFA Membership Dues and Donation - Assessment Account Expenditure

All,
I would suggest we make the donation once again. This is the only organization working on alfalfa issues remaining a part of this group is good for the Nevada Seed Council.
Best regards,
Jose

Good Afternoon All,

The Department of Agriculture has received an invoice from the National Alfalfa Forage Alliance (NAFA) related to the payment of membership dues. This invoice is totaled at \$2526.96. We have drafted a PO to pay the dues out of the research assessment account.

We have added the \$5,000.00 donation you have previously made to the Board of Agriculture agenda pending your approval. We would like to know if the Alfalfa Seed Advisory Association (formally Board) would like to maintain the donation amount of \$5,000.00 to support the research and development of alfalfa seed technologies. Could you provide a response indicating an in favor opinion or opposition to this donation? In the event the donation is supported, I will take the action to the Board of Agriculture for final approval, and ultimately payment to NAFA.

Thank You,

Russell Wilhelm
