

Concealed Carry Policy

Policy 3.6

POLICY

Per Nevada Revised Statutes 561.105, the Board of Agriculture shall establish the policy of the Nevada Department of Agriculture (NDA).

This policy addresses the carrying of concealed weapons in the workplace by non-sworn personnel of the Nevada Department of Agriculture. The NDA recognizes that employees holding a valid concealed firearm permit (CCW) generally have statutory authorization to carry a concealed firearm on the premises of the building in which they are employed. However, because the workplace duties and responsibilities of non-sworn personnel do not create the need to possess or use a firearm, employees choosing to carry a concealed weapon do so outside the course and scope of their employment, and do so in their personal capacities only. Any display or unlawful use of a firearm by non-sworn employees in the course of their duties is strictly prohibited. The NDA is not responsible for the firearm or any consequences arising from the presence of the firearm in the workplace.
