

Capital Expenditure Approved Equipment List

Division of Food and Nutrition

Equipment Definition

2 CFR 200.1 defines “Equipment” as an article of nonexpendable, tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the school food authority (SFA) for financial statement purposes, or \$10,000.

Capital Expenditure Equipment Approval

Any equipment with a purchase price over \$10,000 requires State Agency approval via Nevada’s pre-approved equipment list below or by submitting a *Capital Expenditure Pre-Approval Request Form* as specified in USDA numbered memo SP-39-2016. When program sponsors purchase equipment included on this list, they must follow proper Federal, State, and local procurement procedures, as applicable.
