NEVADA NATIVE SEED
PARTNERSHIP

The 2023 Nevada Native Seed Forum brings together stakeholders to discuss and develop local native seed strategies. Sessions will be held in person with the option to view virtually on April 11. An optional field trip to visit fire rehabilitation sites will also be available to in-person attendees on April 12 (weather permitting). Sessions will cover a breadth of native seed topics including collection, production, testing, certification, and restoration. **Seating will be limited, so be sure to indicate whether you plan on attending in person or virtually.**

Register for the Nevada Native Seed Forum by April 4, 2023 by emailing:
