

Good Agricultural Practices Training

Implementing GAPs: Reducing Risk & Maintaining Safety

The Nevada Department of Agriculture (NDA) and the University of Nevada Cooperative Extension (UNCE) are proud to announce the Good Agricultural Practices (GAPs) Training for food safety. This two-day program will focus on on-farm food safety practices and prepare participants to create a produce safety plan specific to their individual farm business.

Nov. 14th - 15th

University of Nevada Cooperative Extension
Clark County Office
8050 Paradise Rd., Suite 100
Las Vegas, NV 89123
Classrooms B & C

Join UNCE Extension Educator Seth Urbanowitz to learn...

- Principles of Good Agricultural Practices (GAPs) and Good Handling Practices (GHPs)
- Fundamental components of food safety as a part of any comprehensive management plan for growers, specialty crop producers, harvest service operators, distribution and wholesale handlers, direct marketers and fresh-cut processors
- Key points of control and management of microbial food hazards as part of a management plan
- Practices for maintaining food safety and quality in fresh fruit and vegetable production
- How the Food Safety Modernization Act might impact your production system
- Steps to writing a customized farm food safety plan

The cost of this two-day program is \$20 and *pre-registration is REQUIRED.*

Please mail registration information with fee enclosed to the address on the form provided.

This training is sponsored by the USDA Food and Nutrition Service Farm To School Grant Program.

Persons in need of special accommodations or assistance must give at least three days notice to Katie Jameson with the Nevada Department of Agriculture at (775) 353-3639.

The University of Nevada, Reno is committed to Equal Employment Opportunity/Affirmative Action in recruitment of its students and employees and does not discriminate on the basis of race, color, religion, sex, age, creed, national origin, veteran status, physical or mental disability, and sexual orientation. The University of Nevada employs only United States citizens and aliens lawfully authorized to work in the United States. Women and under-represented groups are encouraged to apply.

Good Agricultural Practices Training Agenda

DAY 1

- 8:30-8:55 Registration
- 9:00-9:10 Opening Remarks
- 9:10-9:25 Introduction: Anticipated Training Outcomes and Identification of Food Safety in the Food System
- 9:25-10:00 Foodborne Illness: How it Affects the Farm and How it Can Be Prevented
- 10:00-10:10 Break**
- 10:10-10:45 Risk Mitigation and Prevention Strategies Associated with Food Safety
- 10:45-11:45 Soil Amendments: Manure, Compost & Conventional
- 11:45-12:30 Lunch (provided)**
- 12:30-1:30 Agricultural Water Use: Pre-Harvest & Post-Harvest Considerations
- 1:30-2:00 Crop-Animal Interface: Practical Considerations for Dealing with Wildlife and Livestock
- 2:00-2:15 Break**
- 2:15-2:50 Worker Health and Hygiene
- 2:50-3:10 Field Equipment and Tools
- 3:10-3:25 Field Harvest and Packing
- 3:25-3:40 House Packing Facilities
- 3:40-3:55 Storage and Transportation
- 3:55-4:25 Traceability, Recall and Crisis Management
- 4:25-4:30 Wrap-Up

DAY 2

- 8:30-8:40 Review and Anticipated Outcomes for the Day
- 8:40-9:10 Food Safety for CSA's
- 9:10-9:25 Food Safety for School Gardens
- 9:25-9:55 Food Safety for Farmers' Markets
- 9:55-10:10 Break**
- 10:10-10:30 Farm Biosecurity and Agritourism
- 10:30-11:00 A Public Health Perspective: Farmers' Markets and Farm-to-Fork
Presenters from Southern Nevada Health District
- 11:00-11:20 Resources for Food Safety and Agriculture in Nevada
*Presenters from Nevada Department of Agriculture:
Katie Jameson and Ashley Jeppson*
- 11:20-11:45 Developing a Food Safety Plan
- 11:45-12:30 Lunch (provided)**
- 12:30-1:15 Fruit and Vegetable Biology as it relates to Safety and Quality
- 1:15-1:40 Pre-Harvest and Post-Harvest Practices to Ensure Product Quality and Safety
- 1:40-1:50 Break**
- 1:50-4:10 What to Expect in a USDA Audit and Audit Checklist Overview
Presented by Ashley Jeppson of Nevada Department of Agriculture
- 4:15-4:30 Final Comments and Certificate Distribution

After the GHP/GAP training portion, which will help farmers either reinforce their current food safety practices or help establish a set of practices in their farming operation, a farmer can go through the audit process to be certified for one year under the GHP/GAP certification and apply for cost-share funds. The cost-share program is designed to help defray some of the costs related to a successful audit.

Applications are accepted and approved by the Nevada Department of Agriculture on a first-come, first-served basis. Reimbursements will cover 75% of all costs associated with one successful United States Department of Agriculture (USDA) GHP/GAP audit, up to a maximum of \$750. Participation in the USDA GHP/GAP audit program is completely voluntary. Costs exceeding \$750 are not eligible for reimbursement. It is recommended that potential applicants apply for this funding as soon as their USDA GHP/GAP audit is approved and payment is verified. In the event of limited funds available, preference will be given to complete applications received with the earliest approval date.

Applicants must fully complete the necessary application and be able to show verification of audit approval and payment. Qualified applicants may only receive funding for one successful audit per Federal Fiscal Year (FFY). To qualify for reimbursement, applicants must have successfully completed an approved USDA audit on or between June 1, 2013 and July 30, 2015. Reimbursements will not be given for costs associated with a failed audit.

More and more, schools and restaurants are trying to buy locally produced fruits and vegetables to serve to students and customers. Producers doing business with these schools and restaurants need some type of safety certification to meet the terms of their contracts. Direct market farmers have an opportunity to certify and even have the cost of certification reduced through the GHP/GAP cost-share program.
