Sec. 3. NAC 581.280 is hereby amended to read as follows:

- 581.280 Issuance of license: Prerequisites; inspection of devices; failure of inspection; period of validity of license. (NRS 581.050, 581.057, 581.065, 581.067)
- 1. To obtain a license to use a weighing or measuring device as commercial weighing and measuring equipment, an applicant must provide to the Division information concerning the device, including:
 - (a) The date on which the device was purchased or installed;
 - (b) The manufacturer and model or type of the device;
 - (c) The address where the device is located; and
 - (d) The name of the person who installed the device.
- 2. Except as otherwise provided in this section, upon receiving the information pursuant to subsection 1 about a weighing or measuring device, the Division will, as soon as practicable, inspect the device. If the Division determines that the device meets all the applicable standards

7/6/2018 Page **4** of **7**

and the applicant has paid the applicable fees, the Division will issue a license for the device to be used as commercial weighing and measuring equipment.

- 3. The Division may waive the initial inspection of a weighing or measuring device required pursuant to subsection 2 if the Division determines that the device was adjusted after installation by a person who is registered with the Division pursuant to <u>NRS 581.103</u> to adjust such a device. If the Division waives the initial test, the Division will:
- (a) Immediately issue a license for the weighing or measuring device to be used as commercial weighing and measuring equipment; and
- (b) As soon as practicable thereafter, inspect the device to ensure that it meets all the applicable standards.
- 4. If a weighing or measuring device fails an inspection conducted pursuant to subsection 3, the Division will immediately suspend the license issued for the device. If, during the period for which the license was issued, the device:
 - (a) Passes an inspection conducted by the Division, the Division will reinstate the license.
 - (b) Fails to pass an inspection conducted by the Division, the Division may revoke the license.
- 5. A license issued for a weighing or measuring device to be used as commercial weighing and measuring equipment is valid from [October] September 1 or the date on which it is issued, whichever is later, until the next following [September 30] August 31.
- 6. If a weighing or measuring device used as commercial weighing and measuring equipment was approved by the Department for use on or after July 1, 2003, but before January 27, 2004, a license shall be deemed to have been issued for the device by the Division pursuant to this section, effective on the date on which the device was approved for commercial use.

(Added to NAC by St. Sealer of Weights & Measures by R161-03, eff. 1-27-2004)

- **Sec. 4.** NAC 581.285 is hereby amended to read as follows:
- 581.285 Renewal of license: Notice; payment of fee; inspection of device; failure of inspection. (NRS 581.050, 581.057, 581.065, 581.067)
- 1. On or before [August 1] July 10 of each year, the Division will send a notice of renewal for each license then in force that has been issued by the Division for a weighing or measuring device to be used as commercial weighing and measuring equipment. If a license that is suspended as of the date the Division sends the notices of renewal is subsequently reinstated, the Division

7/6/2018 Page **5** of **7**

will, at the time of the reinstatement of the license, provide a notice of renewal to the holder of the license.

- 2. The notice of renewal must include the amount of the renewal fee which must be paid on or before [September 30] August 31 of that year. If the renewal fee is paid timely, the Division will:
- (a) Renew the license for the weighing or measuring device to be used as commercial weighing and measuring equipment; and
- (b) As soon as practicable thereafter, inspect the device to ensure that the device continues to meet all the applicable standards.
- 3. If, at the inspection conducted pursuant to subsection 2, a weighing and measuring device fails to meet the applicable standards, the Division will immediately suspend the license issued for the device to be used as commercial weighing and measuring equipment. If, during the period for which the renewal was issued, the device:
 - (a) Passes an inspection conducted by the Division, the Division will reinstate the license.
 - (b) Fails to pass an inspection conducted by the Division, the Division may revoke the license. (Added to NAC by St. Sealer of Weights & Measures by R161-03, eff. 1-27-2004)

Sec. 5. NAC 581.295 is hereby amended to read as follows:

Summary of Survey Results – July 2018

Economic impact on small businesses due to proposed changes to NAC 581.210, 581.220, 581.280, 581.285, 581.295

Survey Overview:

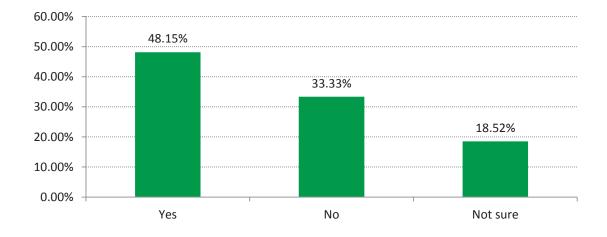

Notice and text of the proposed regulations was mailed via the United States Postal Service to 2,071 commercial weighing and measuring device owners. 51 notices were returned as undeliverable. The notice contained the website address for an electronic survey and provided an option for device owners to request a hard copy of the survey be sent to them by mail or email. The survey was open from June 19, 2018 through July 6, 2018. A total of 108 responses were received.

Survey Results:

Q1. Will the new proposed changes and amendment to NAC have significant impact on your business?

➤ 48.2% of the survey respondents stated the proposed changes to NAC will have significant impact on their business.

Answer Choices	Responses

SMALL BUSINESS IMPACT STATEMENT AS REQUIRED BY NRS 233B.0608

LCB File No. R172-18 July 13, 2018

1. A description of the manner in which comment was solicited from affected small businesses, a summary of their response and an explanation of the manner in which other interested persons may obtain a copy of the summary.

Notice and text of the proposed regulations was mailed via the United States Postal Service to 2,071 commercial weighing and measuring device owners. 51 notices were returned as undeliverable. The notice contained the website address for an electronic survey and provided an option for device owners to request a hard copy of the survey be sent to them by mail or email. The owners of businesses meeting the definition of "small business" under NRS 233B.0382 were asked to respond to the survey. Three device owners requested hard copies of the survey, two of which were returned to the Division of Consumer Equitability by email. The survey was open from June 19, 2018 through July 6, 2018. A total of 108 responses were received, though not all respondents answered all four of the survey questions.

- ◆ 48.2% of the survey respondents (52 of 108) stated the proposed changes will have a significant impact on their business. However, 52% (52 of 98) of survey respondents indicated that the level of financial impact to their operations would be low.
- Proposed changes and increased fees, the survey participants expect their operating cost of business to be affected the most.
- © Survey participants indicated they would mainly change their business strategy as result of the proposed changes.

Persons interested in obtaining the survey results and summary may do so by contacting the Division of Consumer Equitability at 775-353-3782 or by email ce@agri.nv.gov.

2. The manner in which the analysis was conducted.

A statistical analysis of the survey results was compiled and considered. While the majority of respondents indicated the proposed changes would have a significant impact on their business, the majority of respondents indicated that the level of financial impact caused would be low. 13 respondents indicated that the level of financial impact caused would be high; 13 respondents represents 13% of the total survey respondents and .006% of the 2,020 commercial weighing and

measuring device owners notified about the proposed regulations.

- **3.** The estimated economic effect of the proposed regulation on small businesses: The annual economic impact to small businesses is estimated to total \$450,000.
- 4. A description of the methods that the agency considered to reduce the impact of the proposed regulation on small businesses and a statement regarding whether the agency actually used any of those methods.

The agency considered simplifying the proposed regulation, establishing different standards of compliance for small business, and modifying the fees and fines set forth in the proposed regulation so that a small business is authorized to pay a lower fee.

The agency found that simplification of the proposed regulation would not in and of itself relieve the impact of the proposed regulation on small businesses and so that method was not utilized. The proposed regulations in and of themselves are relatively straightforward and the impact of the proposal on small businesses is almost entirely driven by the proposed increase to fee amounts. The agency did not use this method.

In considering establishing different standards of compliance for small business, the agency found that there was an unacceptable level of risk to the patrons of businesses subject to different standards that could result from the business utilizing commercial weighing and measuring devices that are not suitable for their intended use, and/or are not properly installed and accurate, and/or are not so maintained. Because of this finding, the agency did not use this method.

The agency considered modifying the fee(s) and fine(s) set forth in the regulation so that a small business would be authorized to pay a lower amount, but found that in order for the Division of Consumer Equitability to have adequate resources to perform its mandated functions there would need to be an increased amount charged to non-small businesses to account for the reduced fees collected from small businesses. This would result in one set of weighing and measuring device owners subsidizing the cost of service to another set of weighing and measuring device owners. The agency found that such a subsidy would be inappropriate. Additionally, the Division of Consumer Equitability's current system for the registration and invoicing of weighing and measuring devices does not allow for a business to be distinguished by size and cannot be programmed to charge a different price for the annual registration of the same type of weighing and measuring device. For these reasons, the agency did not use this method.

As the agency continues through the regulatory adoption process required under the Nevada Administrative Procedure Act it will consider any other methods to reduce the impact to small businesses that may be proposed.

5. The estimated cost to the agency for enforcement of the proposed regulation.

The agency does not anticipate that its ongoing costs to enforce the proposed revised provisions of NAC 581 will increase. The agency anticipates one-time costs of approximately \$800 to print and mail a notice of the revised regulations to all commercial weighing and measuring device owners following adoption of the regulation.

6. If the proposed regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

Beginning in State Fiscal Year 2020, the agency expects it will collect a total of \$2,124,360 in fees for the registration and testing of commercial weighing and measuring devices. This represents an increase of \$1,276,372 from the amount collected in State Fiscal Year 2018. The additional revenues will be used to hire additional Weights & Measures Inspectors, which will ensure we're meeting all of our statutory duties. Additional revenues will also be used to provide additional training to the Division of Consumer Equitability's Weights & Measures Inspectors, to allow for increased in-state travel for staff to perform required proficiency testing in both of the state's metrology laboratories, and to purchase and maintain new/replacement equipment and vehicles used by the Division of Consumer Equitability's Weights & Measures, Petroleum Technology and Metrology Programs.

7. If the proposed regulation includes provisions which duplicate or are more stringent than federal, state or local standards regulating the same activity, an explanation of why such duplicative or more stringent provisions are necessary.

The proposed regulations are not duplicative or more stringent than federal, state or local standards. The Packers and Stockyards Program (PSP) of the United States Department of Agriculture enforces the Packers and Stockyards Act, 1921, which requires that each stockyard owner, market, agency, dealer, packer or live poultry dealer who weighs livestock, live poultry, or feed for purchases of purchase, sale, acquisition, payment or settlement of livestock or live poultry, or who weighs livestock carcasses for the purpose of purchase on a carcass weight basis, or who furnished scales for such purposes, shall cause such scales to be tested by competent persons in accordance with the regulations in the act at least twice during each calendar year at intervals of approximately 6 months. An exception is granted if scales are used on a limited seasonal basis (during any continuous 8-month period) that the scales may be used during within an 8-month period following each test. The test performed by the Division of Consumer Equitability in association with the annual registration of a livestock scale serves to satisfy one test for those device owners subject to the PSP six-month inspection cycle and may, depending upon timing of the inspection within the 8-month period, entirely satisfy the PSP testing requirement for those scales used on a limited seasonal basis.

8. The reasons for the conclusion of the agency regarding the impact of a regulation on small businesses.

While there will be an impact on small businesses as result of adoption of the proposed regulation, the agency concludes that the regulations are reasonable and necessary in order for the Division of

Consumer Equitability to perform all of its statutorily mandated duties. Based upon the survey responses received, the agency believes the number of small businesses that will experience a strong financial impact as result of the proposed regulations is less than 10 percent.

I certify that to the best of my knowledge or belief a concerted effort was made to determine the impact of this proposed regulation on small businesses and that the information contained in this statement is accurate.
